*Beaded jewellery*

Page 01

# Stage 1: Understanding Basics

- .Beaded jewellery uses beads made of glass, plastic, metal, wood, or gemstones.
- Common items: bracelets, necklaces, anklets, earrings.
- Tools: pliers, scissors, needles, stringing wire or elastic, clasps.

# Stage 2: Choosing Materials

Style

Fashion collection

- Pick bead type (size, color, shape).
- Choose stringing material:
- Elastic for stretchy bracelets
- Wire for strong necklaces
- Thread for detailed beading
- Select findings (clasps, jump rings, earring hooks).

# Stage 3: Planning Your Design

Style

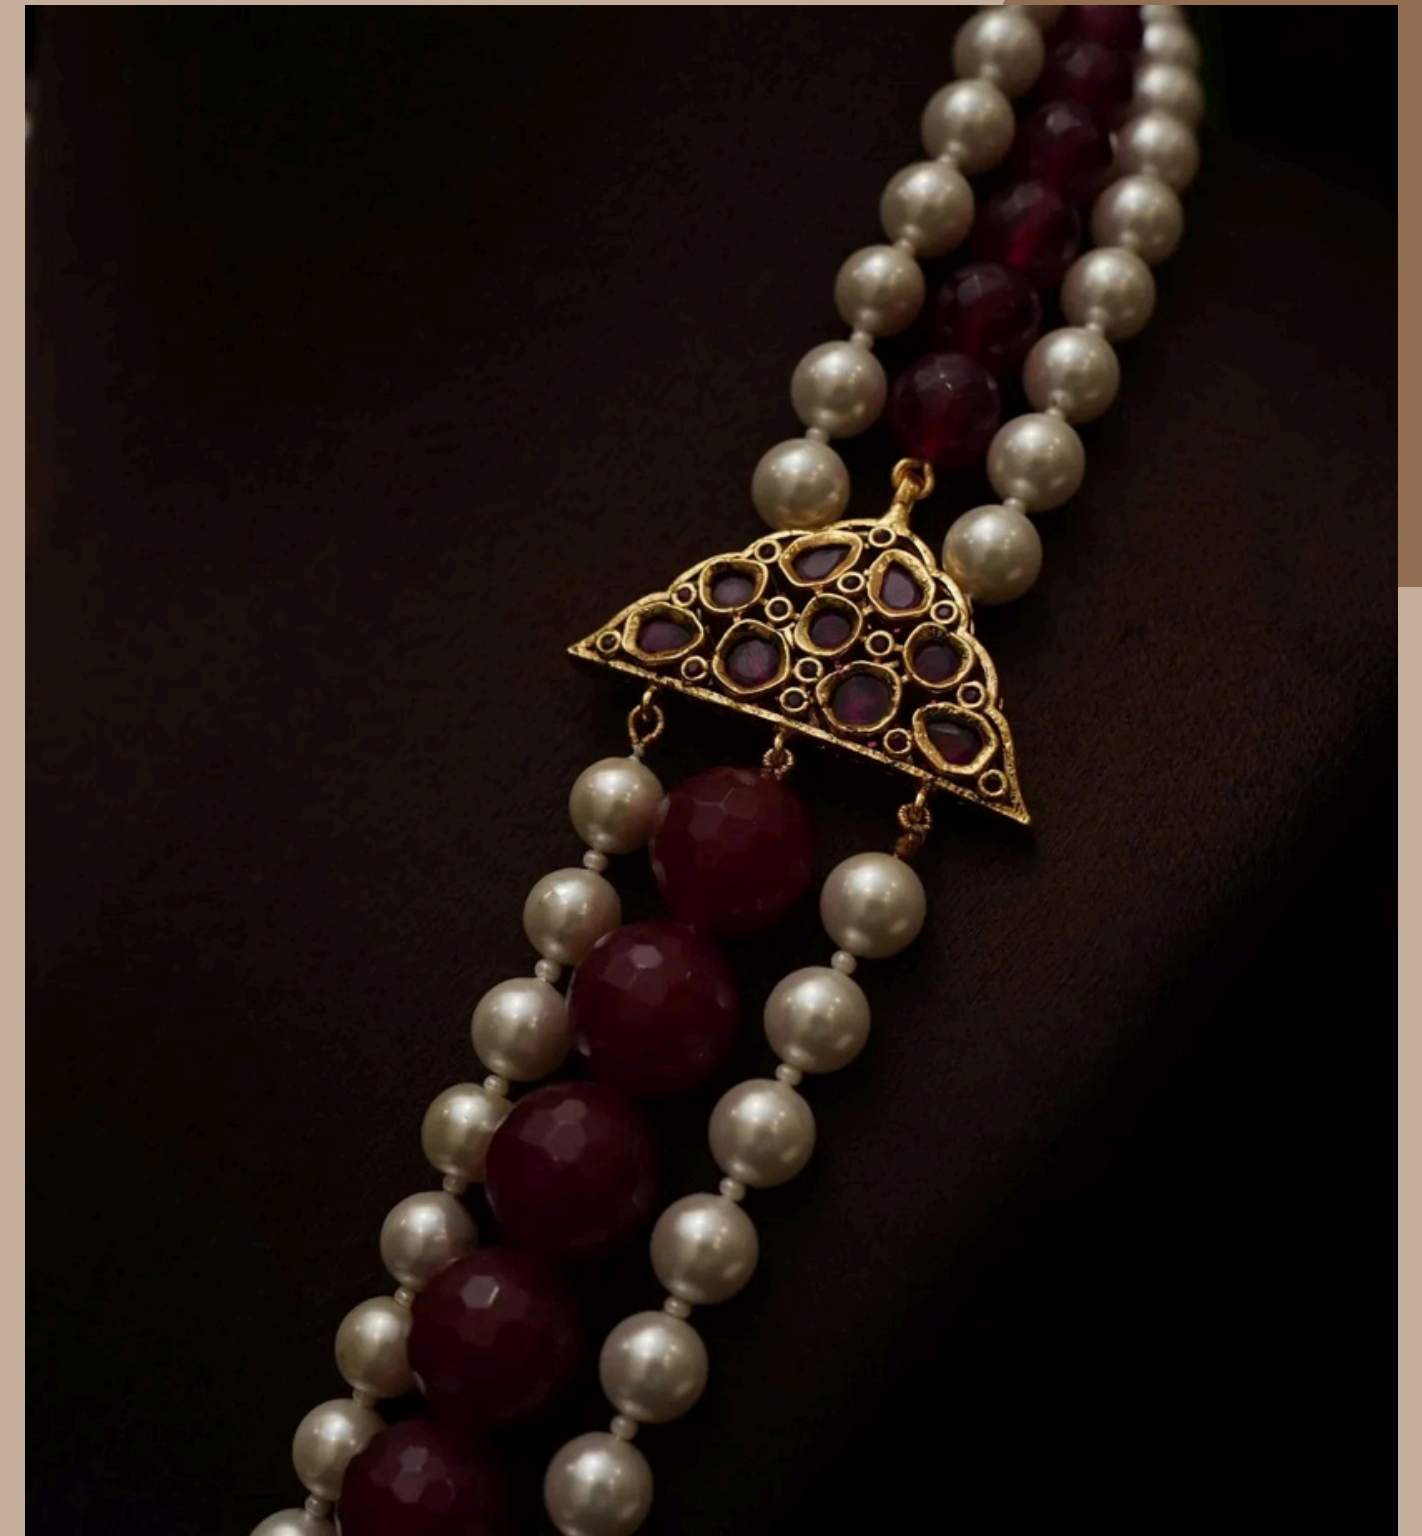

- Lay out beads in order on a bead board or flat surface.
- Decide on patterns: repeating, random, or symmetrical.

Style

# Stage 4: Stringing

- Cut your cord longer than needed.
- Add beads one by one.
- Keep checking the length.

# Stage 5: Finishing

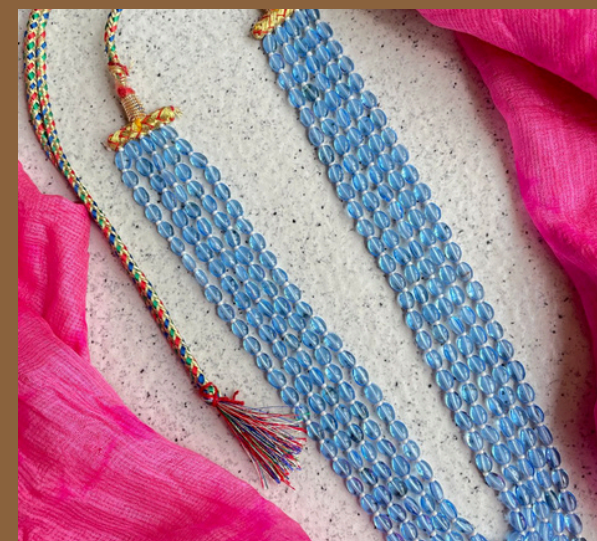

- Tie strong knots or attach clasps.
- Add crimp beads if using wire.
- Trim extra cord neatly.

# Stage 6: Final Touches

- Check for loose beads.
- Adjust or tighten if needed.
- Your jewellery is ready to wear or gift!
